Paper Plate Skeleton

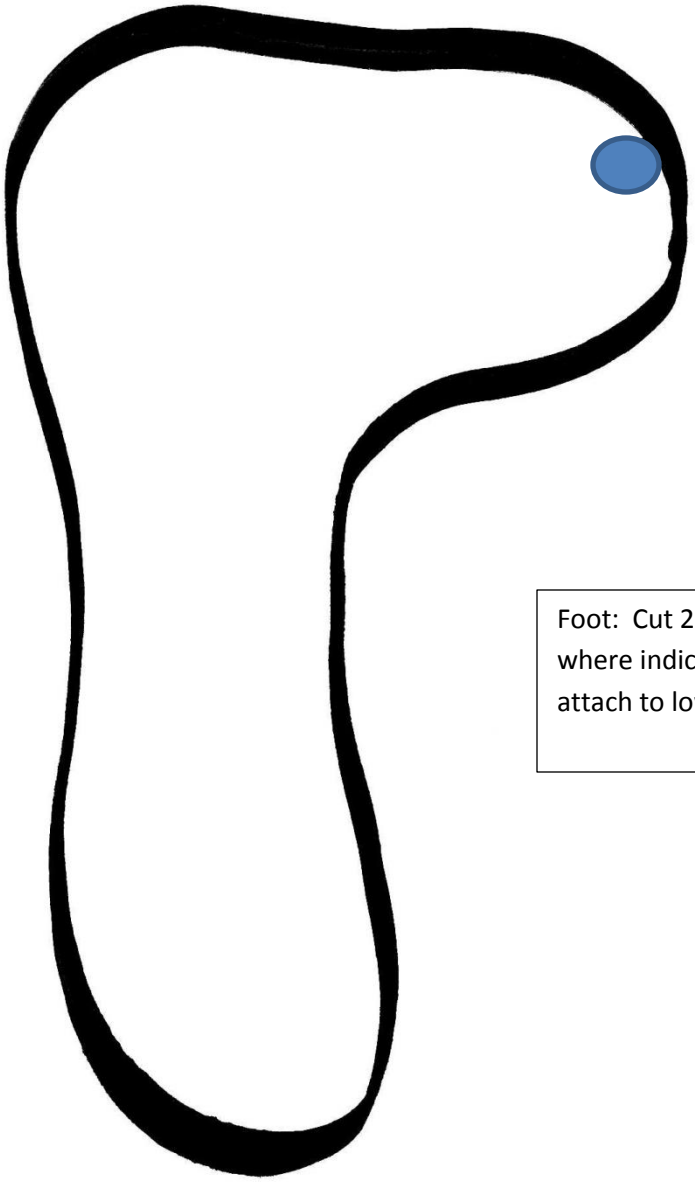
Here's a cute little skeleton to hang on the wall. This is a simple kid's Halloween craft that uses paper plates and paper fasteners. Make up an entire gaggle of goofy or scary skeletons to decorate your window or walls. Find more fun craft projects and activities at: www.Kidfunideas.com

What you'll need:

- 10" heavy duty paper plates or white cardstock
- Scissors
- Black Marker to draw in the face
- Metal paper fasteners or string.

How to make it:

1. Print out the Skeleton pattern pieces.
2. Cut out the body parts from 12 inch white heavy duty paper plates or white cardstock. Make the holes in the body shapes with the hole punch where indicated on the pattern.
3. Draw in the eyes, nose and mouth on the head shape with marker.
4. Assemble your skeleton using the metal paper fasteners or string.
5. To hang your skeleton, make a loop with string and attach in the back with tape.



Foot: Cut 2 – Make holes where indicated and attach to lower leg.

Head: Cut 1

Punch a hole in the bottom to connect to collar bone, and neck
