

# Not So Scary Witch Wall Art

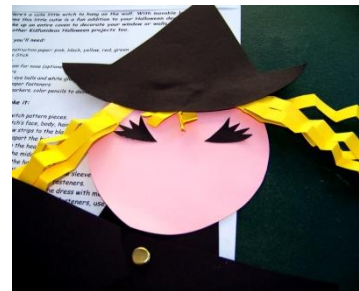

Here's a cute little witch to hang on the wall. This easy Halloween kid's craft has movable legs and arms and is a fun addition to your Halloween decorations. Make up an entire coven to decorate your window or walls and try out our other Halloween projects at: [www.Kidfunideas.com](http://www.Kidfunideas.com)

## What you'll need:

- Construction paper: pink, black, yellow, red, green, orange
- Glue Stick
- Tape
- Pom-pom for nose (optional)
- Scissors
- 2 googly eye balls and white glue
- 4 metal paper fasteners
- Crayons, markers, color pencils to decorate

## How to make it:

1. Print out the witch pattern pieces.
2. Cut out the Witch's face, body, hair and hat shape from construction paper.
3. Attach the yellow strips to the black leg shapes.
4. For the hair, cut apart the hair strands and crumple them slightly. Paste or tape the hair on to the head first. One long section on either side of the head and bangs in the middle.
5. Cover the hair with the hat shape next. Add an orange strip across the hat to be the hat band.
6. Attach the hands to the wide end of the sleeve shapes and then attach the arms to the dress with metal paper fasteners.
7. Attach the legs to the bottom of the dress with metal paper fasteners also. (Tip: If you want to disguise your paper fasteners, use a permanent black marker to disguise

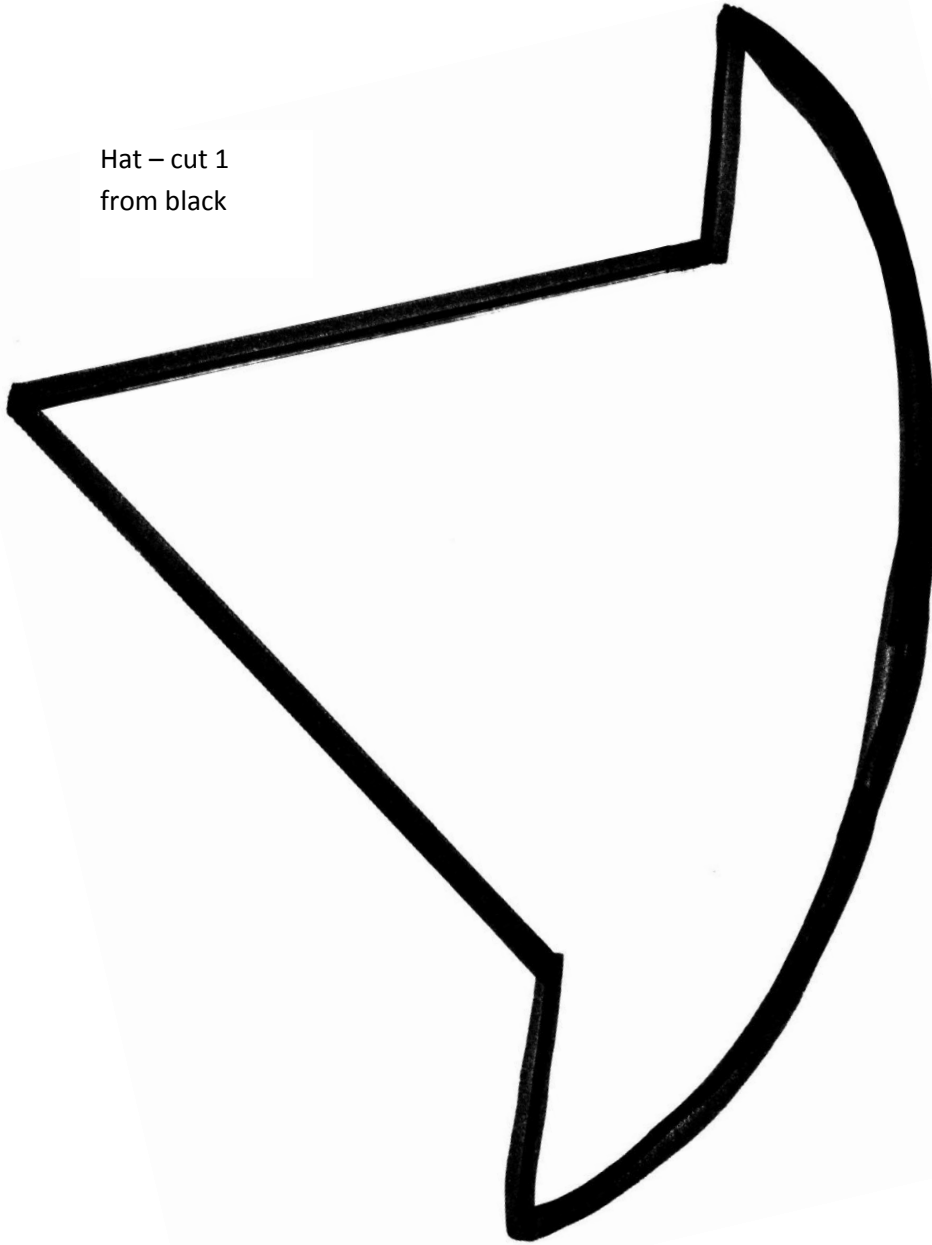

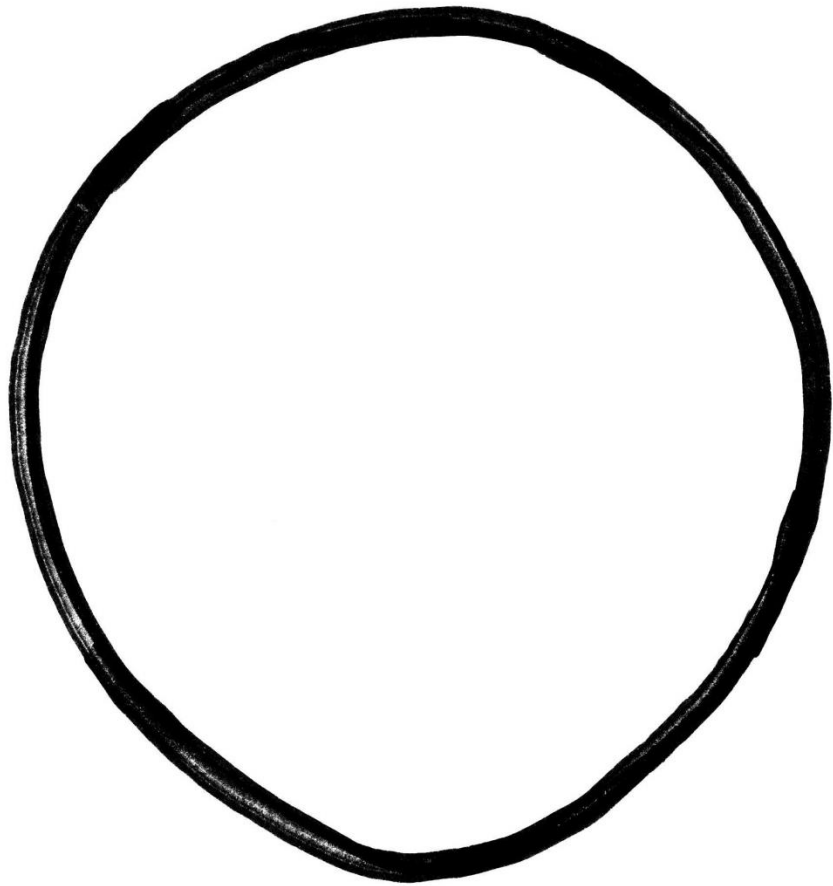

the tops of the metal paper fasteners. This will cause them to blend in with the dress)

8. For the face, glue on the eyelashes to the face with glue stick. Glue the googly eyeballs on top of the lashes with white glue.
9. Cut out the nose from red paper or use a pom pom for the nose. Glue on the nose and draw in the mouth with marker or crayons.
10. To hang your witch, make a loop with ribbon or string and hang with tape.

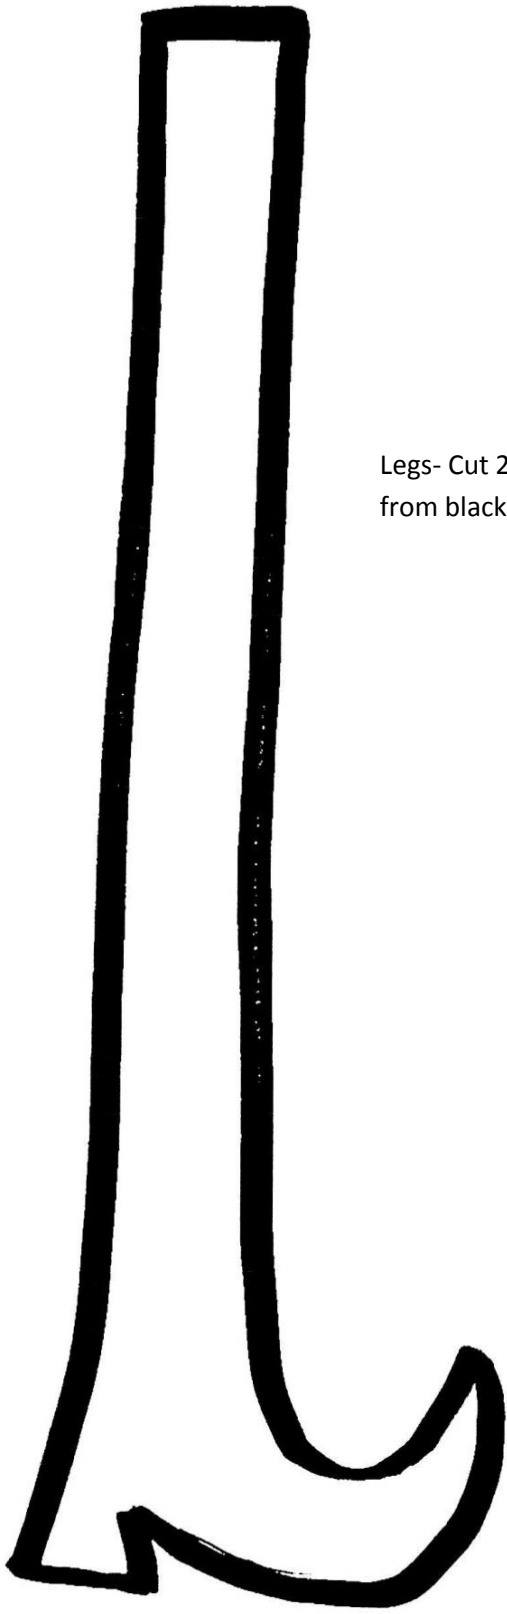

Hat – cut 1  
from black

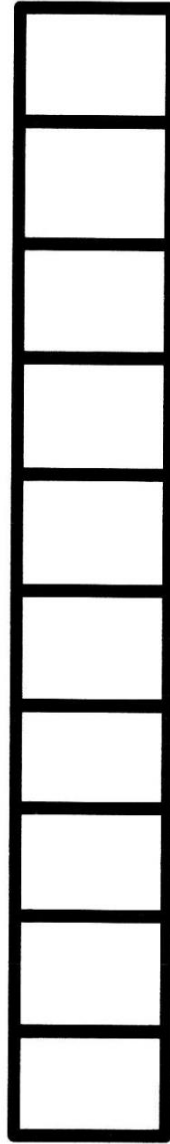

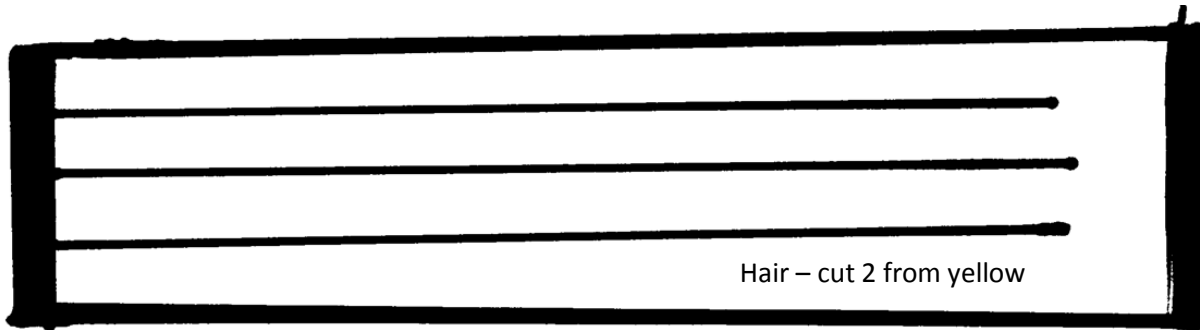

Witch head – cut one from  
pink or green

Legs- Cut 2  
from black

Leg Stripes – cut  
from yellow paper

Eyelashes – cut  
2 from black
