

Knock, Knock card for Dad

Who doesn't like a laugh? Make this really fun card for your Dad and share some smiles on Father's Day. Find more fun craft activities at: www.Kidfunideas.com

What you'll need:

- 1 piece of 8 ½ x 11" Card stock in your choice of color
- Scissors
- Scotch tape
- Colored pencils or crayons
- 2- 6" pieces of ribbon
- Knock, knock card printout – black and white or color

How to make it:

- 1) Print out the Knock, knock joke card - either black and white or color.
- 2) If you are choosing the black and white version, color your card with crayons, markers or colored pencils.
- 3) Cut your printout apart along the lines of the four rectangles.
- 4) Fold your piece of cardstock in half lengthwise. Crease the paper, and then cut along this crease. Fold each of the two pieces in half along the short end. You should now have two sections that are folded in half.

- 5) Tape the two sections together along one of the short ends. Fold your paper up along the folds to make an accordion fold.
- 6) Lay your card out and tape your ribbon to the inside two folded edges so that the ends of the ribbon point towards the narrow edges of the paper.
- 7) On the same side of the ribbon, glue your first section of the card to one of the end sections of the paper with the bottom of the first square closest to the edge of the paper.
- 8) Next, flip your card over and use glue stick to glue your second card section to the second square, leaving the first square blank. The two following sections get glued to the paper sections below it.
- 9) Fold your card up. The front of your card should be on the outside of the paper. Carefully tie your ribbon to hold the card together – that's it! Now you have a super fun card for Dad.
