

Mitten Wreath

This fun little wreath is a simple and easy craft for kids. After all the holiday decorations come down, they add a welcome touch of color to your room or window and are fun to make on those long days when you are stuck inside. Find more fun craft and activities for kids at: www.Kidfunideas.com

What you'll need:

- Colored cardstock or scrapbook patterned paper
- Scissors
- 10" paper plate
- Ribbon for hanging
- Glue stick
- Markers/Crayons or pencils for decorating your mittens
- Paper punch
- Mitten Pattern

How to make it:

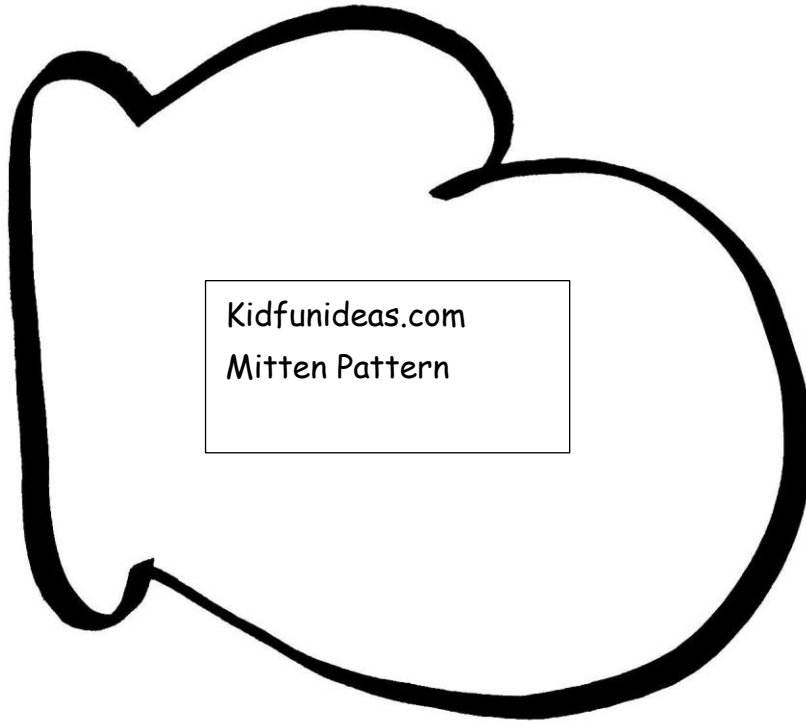

1. Print out the mitten pattern and cut out 12 mittens in a variety of paper colors. It is fun to mix and match colors to create interest.
2. Use Marker to outline your mitten and draw in some pattern or decoration on the mitten.
3. Take your paper plate and cut out the center carefully with scissors leaving about a one inch rim. Use your hole punch to punch two holes 2 inches apart on one side. Thread a ribbon through the two holes and tie off the two ribbon ends to create a loop for

hanging.

4. Next place your plate on a flat surface with the bottom side up. This will provide you with a flat surface to glue your mittens to. Use glue stick to glue your mittens to the plate, overlapping a little if desired. (To add strength to the wreath, turn your wreath over and tape the back side of the mittens to the paper plate)
5. Once you have all the mittens glued and taped to the plate, hang and enjoy!
