

# Picnic Pals

*This fun kid's project is super quick and simple. We recycled toilet paper tubes to make a bunch of these little picnickers. They're great fun to make with our companion project: My Little Picnic Table. Find more fun crafts and activities at: [www.Kidfunideas.com](http://www.Kidfunideas.com)*

## What you'll need:

- 4 Toilet paper rolls
- Tape
- Scissors
- Crayons, Markers or Colored Pencils to decorate
- Picnic Pals Printout

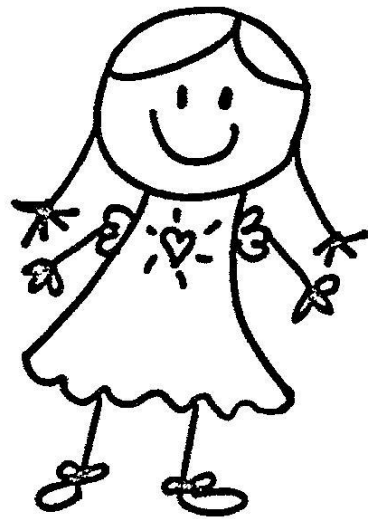

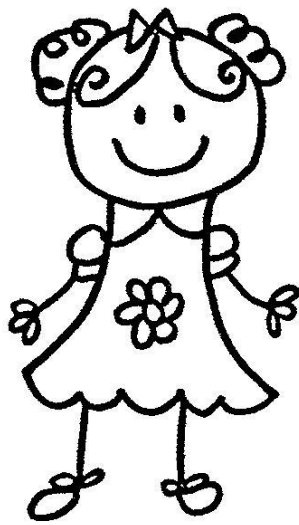

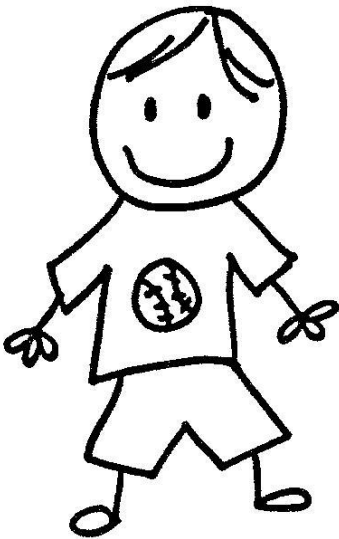

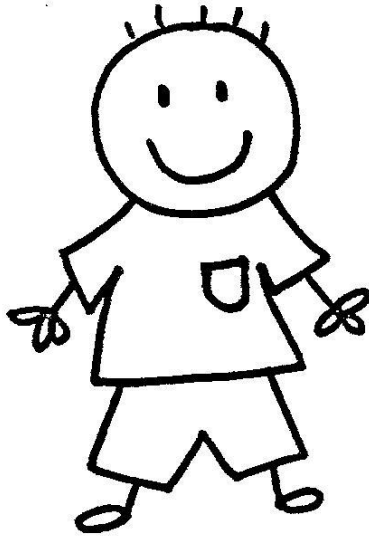

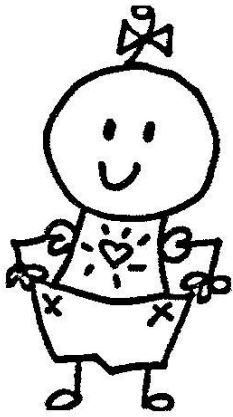

## How to do it:

1. Print out the Picnic Pals. If you are using the black and white version, color however you like.
2. Cut out each Picnic Pal and attach them with tape to the toilet paper tubes. If you would like them to be more durable, you can laminate your pals before attaching them to the tubes.

That's it! Really simple and easy.
